

**EXHIBIT "J"**

**Mailbox Post Detail & Approved Mailbox**

**General Requirements**

Mailbox posts must be constructed of rough Con-heart (construction heart) Redwood, except that the main 4 x 6 post *only* may be brown-tone pressure-treated wood. Fasteners shall be hot-dipped galvanized steel.

- The old post footing shall be removed to allow for the new footing in the same location.
- The main support post may be set in concrete, or attached to a metal post bracket fully encased in concrete using a Simpson Strong Tie CBSQ66 bracket, or similar.

**Approved Mailbox**
